Letter No A5-409/36 dated 30-10-1937 from the Municipal Comm, Bangalore City requesting sanction to the resolution of the Municipal Council for the free grant of a site to the Seva Sadan, Malleswaram.

1 The proposal is to grant free of cost a piece of land measuring 120' x 180' lying between the east and west Park ground, Malleswaram to the Seva Sadan for the construction of building

2 The land proposed to be granted seems to be a portion of the land reserved as lung space in the locality ~~Sanction~~ It is therefore for consideration whether a site in some other locality may not be given to the Institution It may also be perhaps worth while to get information about the funds at the credit of the Institution and about the estimated cost of the building proposed to be raised on the site

on the year 1938 for the Devan for the
grant of a site near the Jewell Filter
for building a home for the Seva Sadan
Society. The President was informed that there was no site belonging to
Government available but that there was a piece of land
suitable for the purpose of the institution
applied for, on the Ngong Road.

2

It will be seen from the sketch
enclosed that the portion now recommended
to be granted to the Sadan forms part
of the area (Item No 41) in
Nairobi No 2 Sheet 1 / 1937 - 3205 &
10 6-38 which is specifically reserved
as a Lung Space. The original intention
was that the entire area should
be reserved as a Park and it was
on account of this fact that the
roads on either side of it are
designated as East & West Park Roads
But in actual fact, this park is being
whittled away for other purposes, as on
the area to the north of the site now applied
for, a Ladies club has already been built
and it is giving general education to boys
Girls & Young - on Home subjects to
women in Sewing, embroidery etc. As such
it is a point for consideration as to whether
it may not be superfluous to grant
another site in continuation of it - almost.

for another institution, some of the objects of which are similar to those of the Lady Chelmsford Shelter (Page 554)

6 Further, sometime ago the residents on either side of this park had submitted a petition to the Dewan, that it was a low lying place requiring to be filled up & that it should be ordered to be laid out as a garden and had also suggested the ways & means of doing it. It was sent to the Municipal Court for report & it was not known how it was disposed of.

2 7 The sketch also shows that there is a main drain running at the place. Having regard to this fact and also that it is said to be low lying, the place seems to be unsuited for constructing a building.

8 The institution is said to be used for housing destitute women etc the actual wards evidently expand and the place being unsuited from several points of views for such an institution - would not be sufficient for its purpose eventually.

K 9 The space has been specifically reserved by Govt as lung space for the houses on either side of the Park and

disposal for other purposes - especially in extension (the park area is already getting reduced) - would not perhaps be appropriate. It is therefore respectfully submitted that the above aspect may perhaps be referred to the Municipal Board then further opinion called for.

10 The Director of Health may also be requested to inspect the spot and favour Government with his opinion as to whether the area is suited for building an institution of the kind & whether it would not render the area congested.

13/11/1937 11 Two petitions - one dated 30 11 1934 from the members of the Lords Procession Mallleswaram addressed to the Dewan & a recent one received in the Secretariat on 29 1 1937 and also addressed to the Dewan on the subject are put up.

12 A draft letter to the Municipal Commissioner calling for further information etc is also put up for approval.

Sd
15/11/1937 13 The points that Sri. Govindaraja or noted in paras 7 and 9 of the above note. It may perhaps be not appropriate to grant a site which is specially reserved as a lung space for the houses or other hdrs of the park. The draft letter to the M C is for consideration.

Grant of a site to the Sevasadan, Malleswaram Extension

With reference to your letter No A5-409-36 dated 30th October 1937 on the above subject, I am directed to invite reference to item No 41 of Notification No L 8479/M1 57-32-14 dated the 10th June 1935 prohibiting the construction of the buildings on the above area and reserving it as a lung space and to enquire whether this fact was brought to the notice of the Municipal Council at the time of considering the subject, as no mention thereof is made in the letter under reply

In this connection I am also to invite reference to this office memo No L 4438/M1 1-34-101 dated 27th December 1934 forwarding a copy of the petition dated 30th November 1934 addressed to the Dewan by the members of the Ladies Association, Malleswaram and to the petition dated 21st January 1935 from the residents of Malleswaram praying that the said area- a part of which is now recommended for disposal may be converted into a play ground and garden and to request to be informed what action was taken thereon and whether these petitions were brought to the notice of the Municipal Council

Information as to the estimated value of the site in question, whether the activities of the Seva Sadan are such as to merit the grant of the site free of cost and whether the site is suited for the purpose of the institution and whether they have the ability to construct the building etc, may be kindly furnished

I am also to request for your definite opinion as to whether having regard to the reservation of the area as a lung space and

and the proximity of the Ladies Association building adjacent to this site, the disposal of this portion will not reduce the area of the Park and render the locality congested in this part of the extension

Grant of a site to the Seva Sadan, Malleswarm

---

1 With reference to your letter No L 6233/M1 68-37 dated 19th January 1938 calling for particulars on the above subject, I have the honour to state that the fact, that the area referred to had been reserved for lung space and park, has been brought to the notice of the Committee who inspected the site and whose recommendation was approved by the Council

2 As regards the prayer of the members of the Ladies' Association for converting, a part of the site recommended for grant to the - Seva Sadan, into a playground and garden, it has to be stated that the length of the ground between the compound wall of the ladies Association ~~binding~~ building and the drain is 200 feet, out of which 120 feet is proposed to be granted The remaining portion measuring 80' and another piece of land which is beyond the drain and measures nearly 300' is available for the formation of parks and gardens There is thus ample space for a park, even after the grant of the site in the above area to the Seva Sadan. The entire file was placed before the Council

3 The objects of the institution are philonthropic in general and it offers shelter to the destitute women and orphan children and

trains women in sewing and embroidering and ~~the party in~~ imparts general education Attempts are being made to send some persons to be trained as midwives

4 I have seen the place and also the site proposed to be granted The site may be granted to the institution It is said to receive a Muzrai grant of Rs 500/- per annum a grant of Rs 240/- from the Department of Industries - and about Rs 1000/- per year by way of subscriptions They have also a deposit of Rs 1000/- and it would appears that donors have promised to construct eight rooms They are now paying a rent of Rs 22/- per mensem

5 In view of the above circumstances and the fact that there is a vast open space between Venkataranga Iyengar road and West park, the site recommended may be granted to the Seva Sadan

The First Annual Report For the Year 1936

Since the public spirited citizens of this vast and populous city entrusted the work of ameliorating the condition of de titute wome n and orphans to us in JANUARY 1936 the manag ng committe of the Seva Sadan Ban alore beg to present this FIRST ANNUAL REPORT

Aims and Object Though the sisters of the urroundi g cities d stricts and provinces are in advance of us by some years in the maintenance of uch HOMES we feel full pleasure in announcing that this Institution has become a thorough success as it has at pre ent 15 inmates This fi ure for the first year of its i ception is a defi nite proof that there has all along been a genuine need for a real HOME for the destitute wo nen and orphans The HOME is doing its best to give shape to this unvoiced demand of not only affordin shelter to the homele s but also to train them into self respecting citizens earn ing their bread by honest means

Management—Since the uplift of the women is better entrusted to the exertio s of members of their own sex with the help of the male members the management of this HOME is vested in a committee of eight ladies

The following persons form the first managing committee —

(1) Lady Lokasundari Raman (*President*)
(2) Mrs A S R Chari (*Secretary & Treasurer*)
(3) Mrs S Rajivi Bai Shiva Rao (*Joint Secretary*)
(4) Mrs Deva Rao Shivaram
(5) Mrs K Shanker Narayan Pao
(6) Mrs M R Scindia
(7) Mrs C B Ramarao
(8) Mrs Sajjan Rao

One more member Mrs Pavana Bai Kelkar a well known social worker was added to the Committee in November 1936

Location—The SADAN is for the present located in a rented building on the SIXTH main road Malleshwaram

Strength —The number of inmates at the commencement was 2
New admissions during the year were 20
Withdrawals during the same period were 7
The present strength is 15

Supervision—The HOME was first put in charge of Mr G C Mullick the grey haired social worker from the North Western Frontier Province since the committee could not get a female worker immediately after its inception As soon as a trained matron became available she was put in charge of the Institution The managing committee can unhesitatingly assert that success of the HOME is in a large measure due to the selfless devotion of Mrs Alamelamma Under her supervision the boarders cheerfully accept the discipline and duties of the HOME not in a spirit of mere obedience but as a work of joy which is completely evident from the remarks of Mr M F Moffat who has endorsed this fact in the visitors book The inmates look very happy and well cared for

Activities—(*a*) At present one is attending the High school one is attending the middle school and six are in the primary classes The rest are being given private tuition since they were admitted to the HOME in the middle of the term As a competent honorary lady teacher was not available the managing committee approached Mr K Shiva Rao B A who has gladly accepted that work and has been performing it with great enthusiasm for the last six months though he is over 60 years of age

(*b*) A beginning also was made by sending two inmates to undergo training in midwifery in the Vani Vilas Hospital but unfortunately this attempt proved to be a failure since one had to withdraw on account of illness and the other for want of sufficient education Whenever inmates with proper educational qualifications are available fresh attempts will be made to take advantage of the kind help rendered to the SEVA SADAN by the hospital authorities of the State

(*c*) On the 24th February 1936 a child of 9 months abandoned by its parents was taken in the HOME and a second child under similar circumstance was brought in on the 5th September 1936

(*d*) In order to impart instructions in needle work and embroidery the committee engaged the services of a lady holding a diploma in that art This lady is giving instructions to the inmates and also to the

girls from the lums The usefulness and popularity of the branch has been so much appreciated that it has been found necessary to open special classes for the girls from the neighbouring places attending this section

Though this is the first year of its existence the institution participated in the exhibition organised by the local Saraswath Mahila Samaj in December 1936 and secured 3 first prizes

( ) In order to train up the girls in the management of households the cooking is entirely being done by themselves in rotation They are also trained in making different kinds of culinary preparations such as curry rassam and sambar powders chutnies pickles happlams sandigay etc and these are being sent out for sale in order to clear out the surplus In the above said exhibition a certificate was awarded to this group

(*f*) Steps are also being taken to teach some of the inmates the art of hand loom weaving

(*g*) The girl guide movement too is being taken advantage of A small contingent of about 19 girl guides has been attached to the SADAN

Acknowledgments—The committee in issuing the first year s report sincerely offer their thanks to the Government of Mysore and to the numerous ladies and gentlemen who by their generous subscriptions donations etc have contributed to the success of this noble cause The committee will be failing in their duty if they do not make special mention of the valuable services rendered by the above mentioned social worker Mr G C Mallick who has not only been mainly instrumental in originating this idea but also in bringing it to fruition They further acknowledge their indebtednes to Messrs Carudachar and Narayana Rao Proprietors of the local bus services for the issue of free pass to Mr Mullick the worker of the institution Last but not least our thanks are also due to Mr V Venkatesiah Vajapayam for having ungrudgingly performed the onerous and honorary duties of an auditor

Appeal —In conclusion the committee beg to appeal to the Government of Mysore mill owners merchants and all the appreciating public to come forward with more and more generous support so that the scope of this useful and deserving INSTITUTION may be extended to a larger and larger sphere

Extracts from the visitors Book

Birla —I was given an opportunity of visiting the SEVA SADAN through the kind invitation of Lady Raman Lady Raman is taking a great interest in this institution and therefor there is no doubt that it is bound to become a real home for the destitutes But there are very few institutions of this kind in the country and the society not only should thank Lady Raman but also help to make it an ideal home for the homeless 20—7—36

2 **Diwan Bahadur T Bhujanga Rao Retired Dt Judge Madras Civil Service** —I and my wife visited the SEVA SADAN this afternoon and were greatly pleased to find the building clean Some of the girls were engaged in sewing and in doing embroidery work They seemed to feel happy The building is in a good localit I hope the institution will thrive and secure a building of its own and increase its usefulness 5—10—36

3 **Mr K Jnani Gen Secy Aryasamaj** —I visited the SEVA SADAN Bangalore to day The provision of orphans and homeless widows is extremely laudable The selfless service and devotion of Lady Raman is exemplary I wish the SADAN a promising future 23—10—36

4 **Hilla Rustonji Faridoonji Secretary Home Science College Delhi** —I has given me very great pleasure to visit this Ashrama and see the good work that Lady Raman and her friends are doing It is the most humanitarian work and I wish her every success and I hope the good cause will find many supporters and this home will flourish 13—11—36

5 **Mr Jayaram Iyer** BA BL —Mrs Jayaram Iyer and myself had the privilege of visiting this noble institution so kindly and nobly sponsered by Lady Raman Word fail to express our appreciation for the selfless work of its worthy president The one thing that captured us was the sweet winsome face of the baby so kindly taken care of The institution deserves every encouragement and I pray that God the Father of all destitutes will make the institution grow from strength to strength and grant long life and happiness to Lady Raman 15—11—36

6 Sujatalitheesen Bhikshuni Chief Buddhist Priestess of India —I visited the SEVA SADAN Bangalore I feel very much impressed by the good work done by this institution and wish that big er quarters may be av ilable soon to enable the wonderful help given to be extended to much more women and children As it stands it is already extremely useful It is well managed and has a great future Many more centres are wanted

Let us serve God in humanity We are all One and if one is miserable and unhappy we cannot enjoy until all share the same advantages and possibilities of progress given by our modern civili zation concerning Hygiene and right living united with the Ancient Aryan Culture

I join hand with all the good workers ploughing the dry and immense field of human misery 14—12—36

7 Miss M E Robinson The Home School Basavan gudi —A very short visit to the SEVA SADAN convinced me of the usefulness of its work I hope to become really well informed as to it activities in the near future 14—12—36

8 Mrs M F Moffat —I visited the SEVA SADAN with Lady Raman on 26th January and was greatly interested in the good work being done in the Home The inmates look very happy and well cared for 26—1—37

9 Lady Mirza Ismail —I have enjoyed my visit to the SEVA SADAN and have had the pleasure of enrolling six of its inmates as Guides along with other girls The SEVA SADAN under the able Presidentship of Lady Raman just starts its career which hope will be ever a prosperous one 9—2—37

14 We have great pleasure to visit this Institution and learn that a great deal of interest is taken in its maintenance This is an unique Institution serving the needs of a wholly deserted class of female children and adult though run on a small scale The interest taken by the matron Superintendent and the Secretary Mrs Siva Rao is commendable

We saw a few girls at work at the Needle and the Loom They looked very much interested in their work It is commendable that such an Institution has been run fairly successfully and it should not be said that it has dwindled for want of public support We wish the Institution every success

No 3 Deferred Subject No 22 of 18-7-1938

" Council Resolution dated 20-9-1937 sanctioning the free grant of a piece of land 120' X 180' between the East and West Park Roads to the Seva Sadan Also letter from Government forwarding objection petitions and a copy of the telegram from the rate payers of that area, protesting against the grant of that piece of land as it has been reserved for lung space "

Mr C I Garuda Char moved that the objection of the petitioners not be ng terable, may be rejected and the Council resolution of - 20-9-37 granting the land to the Seva Sadan be affirmed

Sri R Kalyanamma seconded

Mr B L Byanna while opposing the resolution stated that the plot is reserved for lung space and in view of a number of dwelling houses in that vicinity, it is rather undesirable to grant the land to the Seva Sadan who are likely to utilise the same for the purposes of

Rescue Lore and that some other land may be given instead

The proposition of Mr C M Garudachar was then put to v and carried, 9 members voting for and one against

The Secretary,

Local Self-Government Department,

Bangalore

Sir,

We, the undersigned rate-payers living between the 13th and 14th Cross Roads in the East and West Park Roads, beg to state as follows -

In front of our dwellings there is an open space which is designated as a Park Having regard to the existence of this open space the roads on either side of it are called the East and West Park Roads, respectively The area of the Park or open space is getting gradually reduced owing to the disposal of certain portion for buildings like the Ladies' Association

This area has been prohibited from being built upon except with the permission of Government (vide Item No 41 of the Notification No. L 8479/L1 57-32-19 dated 10th June 1935)

For the last several years, we have submitted a number of petitions to the Municipality, direct and through the Government, praying that the said open space be laid out into a garden This could have been done by spending a few hundreds of rupees

This area serves at present as a lung space to the people living on either side of these roads and is a source of great relief (even though an open main drain exists)

Further the open space is used by young children (boys and girls) as a ground for playing cricket, badminton and football While such is the case and while, in the interests of sanitation and health of the people of this

(P T O

this locality, this area is expressly prohibited from being built upon, a suprise is sprung upon us that it would be disposed of for building a Home for the Seva Sadan, Malleswaram

It may be said, in this connection, that the land immediately to the north of this area is already given over to the Malleswaram Ladies' Association and a building has been constructed That Samaj fulfils some of the objects of the Seva Sadan itself by giving training in some cottage industries to the women of Malleswaram We beg to emphatically protest against the disposal of the site for a Seva Sadan in the midst of family quarters on either side, as the said Sadan is likely to serve eventually as a Rescue Home also We are, however, in sympathy with the objects of the Sadan, which may be given a site far away from family quarters

It seems indeed strange that the Municipality should have ignored our request for the conversion of this space into a garden and should have thought of recommending its disposal for a Seva Sadan

In these days it has been recognised that more areas are to be left open for children's play-grounds in our Garden City, and as a lung space to prevent some serious diseases like Tuberculosis, etc As such, we pray that the Municipality may not, in the interests of the health of the people in this locality and sanitation of the area, dispose it of to Seva Sadan If the Municipality are poor to provide funds for a garden, we are prepared to deposit a sum of Rs 500/- for converting it into a garden

When the Dewan Sahib visited this place last at a marriage function he was pleased to remark that the open space should be converted into a terrace garden As such, we pray that, pending action on the petitions already submitted for its conversion into a garden, the land should not be disposed for a building purpose, as it will render

render the place congested and the benefits of living in an extension would be lost

We pray for the following reasons that the land should not be disposed of for the purpose:

(1) It is reserved as a lung space according to the orders of Government;

(2) It is used as a play ground;

(3) It has to be laid out into a garden We are prepared to pay money for it;

(4) The area will get congested if built upon and the health of the people will suffer,

(5) It is not suited for the purpose of a Seva Sadan The area will not be sufficient for its expanding needs and otherwise also

To satisfy yourself, you may kindly inspect the land and then pass orders

25, West Park Road Malleswaram

To:

The Second Member of Council
Bangalore

Respected Sir

Regarding — grant of land to seva-Sadan in the Park area Malleswaram

We learn that the municipal Council has resolved to give away the said land to seva-Sadan

On behalf of the dwellers in the houses situated between the 13th and 14th Cross-roads — facing the above Park area, We beg to request that a few of us may be permitted to interview you and explain the necessity and importance of not disposing of the above area for building purposes

while we are in sympathy with the objects of the above Sadan, just as the Municipal Council, we pray that for reasons given in the accompanying memo, the land may not be kindly disposed of to the seva-Sadan

Further the entire Municipal Council has not passed a unanimous resolution on the subject It is passed at an

Inspection meeting, which is not an authorised one

We pray that you may kindly inspect the land to know the truth of the ~~first~~ facts mentioned — in the memo and to accede and the reasonableness of our request

About five amongst us may be kindly heard at a time and place to be fixed by you

We beg to remain

Respected Sir

Your most obedient servants

Memo of Points

1 This area of the Park is set apart as a lung-space by a govt notification in the year 1935

2 All the houses built on either side of this part face this park and from the health-point of view it is objectionable to be built upon as it deprives the vesidents, of the air and light which they ave now getting and which ensures their health

3. The area is used as a playground by students and children (The students are separately vepresenting in this matter)

4 It will vender the place Congested if it is built upon in continuation of the Ladies Samy, except for the Cross-road No 14

5 The Dewan was pleased to suggest that this may be Converted into a garden

6 The Convenience and Comfort of the dwellers in the houses will be taken away if this is built upon — especially this is a garden city and lung spaces ave quite necessary

1 The roads on either side of this area ave called East-Park and West-Park roads They ave already navrow and will become navrower still and also after the Park Space is built upon, it would be a misnomer to call them as Pryk-roads

P T O

8 There is a [illegible] which is being worshipped by all Hindus on Shashti and other days in this area

9 This area and its continuation was set apart as a Park in the original layout itself of the Malleswaram Extension Having regard to the existence of this park, sites were purchased and built upon It would not be proper to deprive us of those advantages now

10 The area may not be enough for the expanding activities of the Seva-Sadan

11 The site is very costly — at least it is worth of Rs 10,000 at Rs 4 per sq yd whether this infant institution deserves the grant is for consideration

12 It may not also be convenient for use as a Seva-Sadan Last year a girl who was actually rescued — was kept here and she is subsequently married, and is now in Cantonment (Bramhachari T. Ramachandra - Member of the Legislative Council — knows this fact very well) our fears that it may be used as a rescue home are thus "Justified."

Prayer — This land may not be kindly given for Seva-Sadan Land in Some other locality may be given
